1. Battery compartment
2. iPod dock
3. On/off switch
4. Power input dock
5. Audio input socket
6. Volume control

The Soundtraveller K3000 ST is a versatile speaker system designed for use with iPods and a wide range of other audio devices. Complete with a Made for iPod™ dock connector, the K3000 ST delivers dynamic, crystal-clear sound, is amazingly compact and portable and pumps out a massive 6 watts of music power. Featuring touch button volume control, the speaker only uses 2 x AA batteries but has the added bonus of an audio adaptor and USB cable included so you can hook the speaker up to a laptop, mp3 players and virtually any other audio device. It even comes complete with a tough storage case - perfect for travelling!

Instructions

- ➔ To fit batteries, open battery cover and install in compartment in the correct direction as indicated.
- ➔ To switch on speaker, turn the power switch to ON position. The LED on the front panel will display when active.
- ➔ To listen to iPod player or other digital devices, connect to iPod dock or audio input socket and adjust volume using buttons on the back of the speaker.
- ➔ When the speaker is not in use, remember to turn off, replace dust cover on connector and remove batteries to keep in good condition.

Pack includes:

- Speaker system
- Audio adaptor cable
- USB power cable
- Protective case
- Two AA batteries

iPod is a trademark of Apple Inc., registered in the U.S. and other countries

RoHS ✓ CE FC
